

What's the Small Business Healthcare Tax Credit?

The small business healthcare tax credit helps make group health coverage more affordable by contributing up to 50% of what employers pay towards employees' health insurance premiums.

Eligibility Guidelines

- Employers must have fewer than 25 Full Time Employees/Full Time Equivalent Employees (FTEs).
- Average employee salary must be below \$50,000.
- Employer must purchase their plan on the SHOP (Small Business Health Options Program) Marketplace.

Find Out If You Qualify

1. Determine how many full time employees you have <http://bit.ly/2jqGrlg>
2. See if your average employee salary is less than the maximum
3. Begin exploring plans/information on the SHOP Marketplace with a Registered Broker
4. Consider your budget for a contribution to employees' premiums
5. Review case studies to see examples of how using the SHOP could impact your business

What is a "Full Time Employee"?

The Affordable Care Act changes the way we count total number of employees. The number of hours a Full Time Employee works varies between programs and eligibility. You should also be aware that your part time and seasonal workers (working more than 120 days) can be added together.
